

Q2 2024/2025

NETWORK HIGHLIGHTS

23/24 ANNUAL REPORT RELEASED

The Paediatric Society of New Zealand's 2023/2024 Annual Report has been released. This document highlights the Networks' and members' commitment to enhancing the health and well-being of tamariki and rangatahi across Aotearoa, and showcases the range of initiatives and collective efforts driving positive change in child health.

INTER-NETWORK COLLABORATION

A collaborative partnership between the Child Protection and Gastroenterology Networks led to the delivery of the session "When Two Worlds Collide" at the Child Protection Network Satellite Day during the PSNZ Annual Conference in Dunedin in November.

The session received positive engagement and feedback, particularly regarding the valuable cultural safety & competence skills gained by attendees.

NATIONAL REPRESENTATION FOR DIABETES

The NZCYCN Clinical Network for Children and Young People with Diabetes is represented on the Te Whatu Ora Mahitahi Matehuka National Clinical Network for Diabetes. Dr. Jo McClintock, Chair of the Diabetes Clinical Network, has been appointed to this group that is dedicated to addressing inequities and improving the care and outcomes for all whānau with diabetes.
